The new Helleborus plant is a product of a planned breeding program in Glandorf, Germany. The objective of the breeding program was to create new uniform Helleborus plants with unique and attractive plant habit, leaf and flower coloration and resistance to pests. The new Helleborus plant originated from a cross-pollination conducted by the Inventor in Glandorf, Germany in November, 2010 of a proprietary selection of Helleborus×hybridus identified as code number A-1201-2, not patented, as the female, or seed, parent with a proprietary selection of Helleborus×hybridus identified as code number A-1218-3, not patented, as the male, or pollen, parent.
